Our Story

At Accounts AI, we aim to bridge the gap between traditional financial practices and cutting-edge technology. Founded by an individual passionate about innovation, we recognise the growing need for organisations to integrate accountancy AI software into their operations seamlessly.

With a background in accountancy, our founder experienced the tedious nature of working with old-school spreadsheets and untidy formulas. Accounts AI provides a holistic model that embraces new technology while adapting and evolving with industry standards.

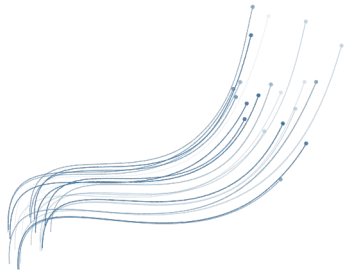

Our overarching mission is to empower businesses to step confidently into the future of finance, embracing technology, driving efficiency, and unlocking the true potential of Accounts AI. We envision ourselves as the enabler of strategic finance, leveraging the power of artificial intelligence.

As your migration companion, we commit to training your business to unlock the power of machine learning, revolutionising your finances and eliminating dependence on outdated systems. Accounts AI gives you the tools to uncover new efficiencies, affording your accountants more time for strategic thinking.

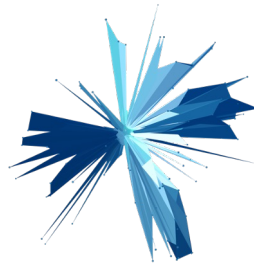

Accounts AI is a business that transitions SMEs from using legacy spreadsheets, e.g. excel, to AI software. We are training and migrating companies to the software and offering them different packages suited best to their business to make the transition as smooth as possible.

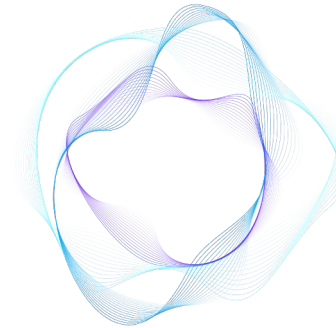

Migration

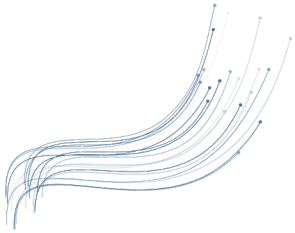

Training

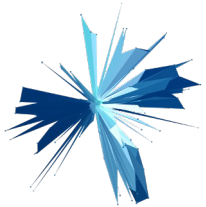

Managed Service

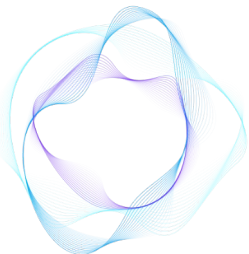

Migration

Allow us to be your migration companion so that you have a helping hand when transferring your data to your new AI software. We will ensure that all your data is kept safe and secure while performing a seamless transfer, leaving you with peace of mind and time to focus on other essential aspects of your business.

Training

Leave no stone unturned and explore the full capability of AI. We offer an in-depth walkthrough of each software we provide so that you can learn all the ins and outs to become the champion of your own business.

Managed Service

The best team of professionals you could ask for is just one call away. We offer round-the-clock support 24/7/365, so we can always help whenever and wherever you are. In the business for over ten years, our managed service service team can ensure that any issues you are experiencing are quickly fixed.

Testimonials

Running a grassroots football team is always challenging, and keeping track of financial information can be the same. Trying to complete numerous spreadsheets and locate invoices saved in different folders can be a time-consuming process to sort out.

However, after discovering Accounts AI, this will never be the case again! Thanks to your punctual responses and detailed instructions, migrating our data into Xero was a seamless and timely process. Having all our financial information held in one place makes it so much easier to see our financial results rather than going from spreadsheet to spreadsheet to find the answer.

- Edward Tennant (Bowling Green FC Manager)
